At **Private Flagship**, we build stunning Mercedes Benz Sprinter Vans. We do our own design and interior with our vans but love the opportunity to work with customers to customize and build their dream van.

If you already own a Sprinter and plan on doing your own conversion, Private Flagship will work with you on whatever portions of building your van you'd like help with.

Owner, Chris Thompson will also deliver our sprinter vans to customers. Chris enjoys traveling and meeting all his customers to personally welcome them to the Private Flagship family! Private Flagship is committed to fulfill all your needs so you can get your perfect van.
